

Summer Training 2020 White Paper Java Programming 15 June 2020 - 26 June 2020

COURSE DURATION

40 hours Comprehensive Weekday Course (10 classes of 4 hours from Monday to Friday) with weekly Project Guidance Session and assured 1 month internship with PrismCode.

LOCATION

Janakpuri, New Delhi

OVERVIEW

Java is among the most popular programming languages out there, mainly because of how versatile and compatible it is. Java can be used for a large number of things, including software development, mobile applications, and large systems development. As of 2019, 88% market share of all smartphones run on Android, the mobile operating system written in Java. Knowing Java opens a great deal of doors for you as a developer. In this course you'll be exposed to fundamental programming concepts, including object-oriented programming (OOP). This course assumes **no previous coding experience** and takes you from absolute beginner core concepts, like showing you the free tools you need to download and install, to writing your very first Java program.

CERTIFICATE OF TRAINING COMPLETION

There would be a qualifying examination for the enrolment of the course and in the end of the course each student would have to present their project which they would learn to develop in the course. A certificate of summer training would be provided to every student. This Certificate would be Internationally Validated.

The following certifications and awards would be given to scholars of the batch :

1. The best performer of the batch would be honoured with the certification of **'The Best Performer of the Batch'**.
2. There would also be a category for constant improvement in the course and 1 student out of the batch would be honoured with **'Gemba Kaizen'**.

CLASS STRENGTH

Maximum of 10 students per batch.

COURSE CONTENT

- Introduction to Java
- Object Oriented Programming Concepts
- Introduction to Abstract Classes
- Introduction to Packages
- Scope of Access Modifier
- Exception Handling
- Introduction to Multithreading
- String Handling
- File I/O operations
- Introduction to Applets
- Introduction to Swings
- Events in Java
- Introduction to Database
- Working on JDBC

FEES & ENROLMENT

The fees of the course is ₹15,000/- all inclusive.

Discounts :
